*Support for other Integrity
servers may be revisited per

customer demand.

Important Notes

*Field Test versions should
not be run in a production
environment.

*Field Test versions are
provided "As-Is" without
any further expectations.

Field Test Application
OpenVMS v8.4-1H1

Thank you for applying to participate in the first field test of the historic release of VMS Software, Inc.'s version v.8.4-1H1 of OpenVMS. We will accept as many applications as our engineering staff can accommodate, which may limit the number of applications we can accept.

Application is due no later than January 15, 2015. Send to Sue Skonetski at sue.skonetski@vmssoftware.com

Applicant Information

First Name   Last Name   Company

Department   Location   Phone

Email

If you develop OpenVMS products, please list your product names below:

Your Test Environment

List hardware you will use to test 8.4-1H1 (include: #Sockets/Cores and #Units)

List i2/i4 hardware currently running in your environment (include: #Sockets/Cores and #Units)

List OpenVMS layered products you will test

List open source products you will test

What major storage arrays do you have?

                                                    MSA   EVA   XP   3PAR   EMC   Other

What compilers do you use?

Do you use Oracle server or Rdb?

                                                    ORACLE   RDB

Field Test Application
OpenVMS v.8.4-1H1

Test License Information
How many test licenses will you require?

How many testers will use the licenses?

List the names of your testers below

Final Release Queries
Are you planning to purchase OpenVMS 8.4-1H1?

YES   NO

— All following questions assume you answered "Yes" above.—

When do you plan to purchase OpenVMS 8.4-1H1?

Who will you buy OpenVMS 8.4-1H1 from?

Who is your current contact for OpenVMS purchases or issues?

How many licenses are you planning to purchase in 2015?

VMS Software will make per-ordering available in February 2015. Will you pre-order? If not, what incentives would change your mind?

Tester Obligations
Your acceptance as a tester of OpenVMS 8.4-1H1 is contingent on your agreement to the following terms:

1. The test version of OpenVMS 8.4-1H1 will only be loaded on test systems and not on production servers.

2. You agree to providing no fewer than 2 contact people for the testing phase.

3. You agree to provide detailed reports on your test experience, including but not limited to issues involving:
    * Installation
    * OS Performance
    * System Management
      - utilities work properly, sysman, sysgen, lancp, scacp, msa$util, sas$util, backup, etc
    * Application
      - performance, appearance, behavior, etc.
    * DCL
    * Clustering
    * Networking
      - DHCP, SSH, etc.
    * Any other problem areas that arise during your tests

4. The test version of OpenVMS 8.4-1H1 is provided "As-Is" for the specific purpose of testing its capabilities within your non-production environment.

5. You agree to provide all of your reports in a timely fashion, and agree to reasonable exchanges of communications regarding the issues you report to the VSI development team.

VSI Obligations

1. VSI shall treat all information communicated to it as confidential and shall only use it for quality checking and improving OpenVMS 8.4-1H1.

2. Tester contact information shall only be used by the VSI development team and not divulged outside this group unless the Tester provides explicit written approval.

3. VSI shall make reasonable efforts to respond to Tester reports and questions.
